Information Systems Faculty Position

Dakota State University invites highly qualified individuals to apply for a tenure-track faculty position in information systems. DSU seeks colleagues who can contribute to DSU’s doctor of science in information systems through excellence in graduate-level teaching and research. Multi-disciplinary and applied research involving information systems is strongly encouraged and colleagues offer and expect collaboration in all phases of academic life.

Successful candidates will teach within the D.Sc. program and may also teach in the Master of Science in Information Systems, the Master of Science in Health Informatics, or the Master of Science in Information Assurance. The College also has undergraduate degrees in information systems, computer science, computer security, business administration, health information management, and business and computer education. Courses are taught on campus in Madison, in Sioux Falls, SD and via distance.

Qualifications include a Ph.D. or equivalent degree in information systems or a related information technology field, demonstrated record of research accomplishments in applied/informatics-related information systems, experience writing and securing grants, and effective and innovative teaching. Interest and experience in one or more of these areas will be considered a plus: decision support/analytics, knowledge and data management, and healthcare informatics. The ideal candidate will have a Ph.D. from a prestigious academic program and solid technical skills, in addition to those qualifications listed above. Faculty rank is commensurate with qualifications and experience. Salary is highly competitive.

DSU is accredited through the AQIP process of the Higher Learning Commission and, to support its institutional accreditation, the university emphasizes continuous quality improvement in its institutional decision-making processes. Madison is located approximately 50 miles northwest of Sioux Falls in the southern lakes region of the state and provides exceptional access to outdoor activities of all kinds. For more information about DSU, go to http://www.dsu.edu.

DSU accepts applications through an on-line employment site. To apply, visit https://yourfuture.sdbor.edu. Applications should include a cover letter and (a) full curriculum vitae, (b) a brief statement of current and future research interests, (c) evidence of excellence in research, grantsmanship and teaching, and (d) the names and contact information for three references. For questions, contact Susan Slaughter at Susan.Slaughter@dsu.edu. Review of applications will begin February 15, 2012 and continue until the positions are filled. Position is dependent on funding.

Dakota State University is committed to recruitment, hiring and retention of minorities. We urge individuals from underrepresented groups to apply. Applicants with disabilities are invited to identify any necessary accommodations required in the application process. EOE
